

Muse™

*Wireless hearing solutions
made for life.*

Made for life.

It's been proven that hearing health is directly connected to overall health and well-being.

When you're able to hear and engage with the world around you, you live a better and healthier life.

Our pursuit to help people hear better and live better has led to our biggest breakthrough to date.

Starkey®'s most advanced technology, **Muse™**, offers supreme sound quality and premium features. Muse is customised to fit your unique hearing needs and enhance your listening experiences.

Starkey Sound™ has cutting-edge technology that delivers true listening enjoyment.

Muse™

Made for your day-to-day.

Listening in noise

Advanced noise reduction technology and precise directional microphones work together to help make speech easier to hear in today's complex listening environments.

Enhanced convenience and confidence

Rechargeable hearing aids are now available. Enjoy continuous, stable and uninterrupted power throughout your day.

Better connections

Stream TV, music and more to your hearing aids. SurfLink™ Mobile 2, SurfLink Media 2 and SurfLink Remote offer carefree hands-free connectivity and control with no worn device.

Works with your phone

While other hearing aid manufacturers require you to wear a device around your neck, SurfLink accessories offer a direct wireless connection between your mobile phone – or any other Bluetooth® device – and your hearing aids.

Made for convenient connectivity.

With more and more wireless products on the market, making connections between devices can be challenging. To navigate listening environments with high wireless traffic, our 900sync™ technology provides a powerful solution. It delivers high bit-rate streaming, allowing for ear-to-ear phone streaming and wireless capabilities for single-sided hearing loss.

SURFLINK®

Our Starkey wireless hearing aids wouldn't be complete without our popular SurfLink accessories.

Our compact mobile phone transmitter, **SurfLink Mobile 2**, is an assistive listening device, media streamer and hearing aid remote all rolled into one.

SurfLink Mini Mobile works in tandem with SurfLink Remote Microphone 2 to offer you a small and simple mobile phone streaming solution.

SurfLink Media 2 is a set-and-forget media streaming solution that connects to TVs, MP3 players and more, to wirelessly stream audio directly to your hearing aids.

Our **SurfLink Remote** can be used to adjust volume, change memory modes, go in and out of streaming mode and much more — all with the push of a button.

Our discreet, lightweight **SurfLink Remote Microphone 2** is worn by a conversation partner to aid patients in one-on-one conversations in difficult listening environments.

Recharge. Relax. Repeat.

Trust in the reliability
of rechargeable.

*One pair of ZPower
batteries equals 200
disposables*

Starkey now offers a rechargeable battery option.

With **ZPower**,[®] you can enjoy continuous, stable and uninterrupted use throughout your day. With rechargeable solutions, you can also avoid the hassle of disposable batteries.

You simply set your **Muse micro RIC 312t** hearing aids on the ZPower charger overnight, instead of replacing your batteries every few days.

A pair of ZPower batteries can take the place of an estimated 200 disposable batteries. Your hearing care professional can replace your ZPower batteries for you each year.

*“It’s been a game
changer for me. I have
complete confidence
that my batteries are
going to last.”*

— Greg M.

Made for
music lovers.

Tastes in music may be unique,
but the power of music is
universally understood.

Thanks to the processing power in
Muse hearing aids, you can enjoy
your favourite music in a whole new
way with features that:

- Focus on music audibility, desired loudness and sound quality
- Make soft music sounds audible
- Allow on-demand and automatic control

The result is listening enjoyment for
the way you want to hear music –
automatically and in your control.

Made for
every type
of hearing loss.

If you have single-sided
hearing loss, Muse has
a solution for your
hearing needs.

Our wireless **CROS** and **BiCROS**
hearing aids bring audibility and speech
understanding to those who struggle
with **single-sided hearing loss**.
900sync technology allows streaming
to the good ear to provide quality,
clarity and consistency of sound.

***CROS/BiCROS functionality
is available to you in
RIC or BTE styles.***

Made to deliver the very best.

You want

*To hear comfortably in
challenging environments*

*Rechargeable
hearing aid solutions*

Better wireless streaming

*A comfortable, personalised
listening experience*

No buzzing or whistling

*Durable, dependable
hearing aids*

*Music the way it was
meant to be heard*

Customisable tinnitus relief

Muse delivers

Acuity™ Directionality, designed to improve speech audibility in difficult listening situations along with **Speech Shift**.

Continuous, stable and uninterrupted power throughout your day with rechargeable hearing aids. Avoid the hassle of disposable batteries and have more confidence with long-lasting hearing aid power.*

Technology that provides consistent wireless performance while streaming mobile phones, TV, music and other media with **SurfLink Mobile 2**, **SurfLink Mini Mobile** and other **SurfLink** accessories.

Capabilities that speed your transition to hearing aids with gradual adjustments, distortion-free listening in noise, and ultimate clarity for soft sounds.

Starkey's best-in-class feedback cancellation system providing feedback-free, comfortable listening all-day long.

Surface™ NanoShield, our pioneering water, wax and moisture repellent system, to protect and ensure durability and dependability.

A design that allows you to experience music in a whole new way. Now you can hear every note the way the artist intended – with pure, refined sound quality.

Advanced **Multiflex Tinnitus Technology** integrated into Muse to bring relief to those who suffer from ringing in the ears.

Features may vary by technology level.

*Rechargeable hearing aids are only available in the Muse micro RIC 312t.

Made for
everywhere
 you are.

From the beginning,
 our hearing solutions
 have enabled people to
 hear better in challenging
 environments and
 live a better life.

You want to hear all the
 subtleties of life: the inflection
 in the voice of a spouse or
 the nuances in the notes
 of a favourite song. Whether
 it's one-on-one or in the
 most crowded places,
 you'll hear the world
 around you.

What you need will depend
 on how busy and active
 you are, and what types
 of environments
 you frequent.

Listening environments

Made for your style.

Styles and colours

Pick your favourite colour among our new styles, which include our smallest devices and custom-fit options — both with tinnitus and wireless CROS and BiCROS solutions.

Consult your hearing care professional to see if rechargeable hearing aids are right for you.
